

# Australian Patent Applications Scoreboard 2008

Edited by Paul H. Jensen and Alfons Palangkaraya

A4 34pp ISSN 1832-1070 \$A25 per copy (including GST)

The Australian Patent Applications Scoreboard is a comprehensive collection of data about the number of patent applications made in Australia each year.

The report includes data about:

- how many applications are filed in Australia each year (PCT and non-PCT);
- in which technology groups applications are filed (including which patent attorney firms make the most patent applications in the various technology groups)
- how many applications are made by patent attorney firms;

and a ranking of the firms based on the number of patent applications made.
